

Weekly News

Friday 6th February 2026

In a week of farewells, inside and out of school, the power of love has shone through! We feel so exceptionally fortunate to be part of the most fabulous community and we could not be prouder of our children, our families and our staff team. To those that we have said farewell to... until we meet again may God hold you in the palm of his hand.

THANK YOU FOR THE MUSIC MRS USHER MBE!

Wishing you a wonderful retirement and all the very best for your future adventures...may the road rise to meet you and the sun be always on your back xxx

Headteacher Award Winners

Nursery	Millie and Quinn K-S
Reception	Darcie and Sonny
Year 1	Harlem and Remy
Year 2	Jud
Year 3	Olivia and Odin
Year 4	Frankie
Year 5	Noah and Siam
Year 6	Ayanah and Kajetan

EYFS

Hola from Nursery this week! We discovered that the Gingerbread man travelled to Spain and have enjoyed some Spanish activities together including saying the register in Spanish, making flags, doing some flamenco dancing and playing different instruments. We also baked a delicious Seville orange cake. We can't wait to find out where the Gingerbread man travels to next...!

We have continued our learning on number 4 this week and loved playing games to show the composition and were fantastic at saying what we could see and what we noticed! Well done for a super week, Nursery.

We have had a super week in Reception! We have especially enjoyed developing our understanding of the different ways to make 5, using the rhyme, 5 Little Speckled Frogs. We worked in pairs to play a hiding game with the frogs so we could demonstrate our knowledge of the composition of 5. We have also been working on our fine motor skills by using playdough every morning to complete our dough dance challenge! We have also been using scissors and split pins in a variety of ways with paper and card to strengthen our fingers. An excellent week, Reception!

Key Stage 1

Well done Year 1 for your fantastic season's assembly. It was very informative and your singing and dancing was amazing! We have had a very busy week measuring the weather in each afternoon and it has been very windy and chilly!

We have also started writing our own narrative inspired by 'The Comet'. In maths we have been learning to use 'first, then and now' to create math's stories with matching addition equations. What a great week!

Year 2

Year 2 have had a fantastic week of learning! In Science, children have been exploring different materials and using scientific vocabulary to describe their properties, showing great curiosity and careful thinking. In Maths, they have been getting to grips with multiplication and division, understanding how numbers can be grouped and shared. Everyone is thoroughly enjoying our Literacy text, The Owl and the Pussy-cat and have done some amazing writing too. A super week, Year 2!

Lower Key Stage 2

Year 3 have had another busy and exciting week! 3S had their final forest school session and what an incredible 5 weeks it has been. This week they helped Jane with the fire, where she then popped some corn for everyone to eat and even made some hot chocolate to drink! 3M have been getting creative in both Dance and Art. They have been interpreting and responding to different pieces of music in dance; in Art the children have been creating mono-prints inspired by Ancient Egypt. In maths this week, we have started our new topic of lengths and perimeter. The children have been using metres, centimetres and millimetres to measure different objects.

Another exciting week this half term where Year 4 are continuing to explore fractions and their place in the real world. We have been discussing mixed numbers and working out how we can easily compare them.

In English, we have written a speech with the purpose of persuading a character in our story of Frindleswyld. We explored superlatives and the effect they have on the reader.

Through our Art this half term we have been exploring sculpting with a focus on the sculptor, Courtney Mattison, who has inspired us to create clay sea turtles as part of a Great Barrier Reef seascape.

In other exciting news, it's the Year 4 assembly next week so we look forward to seeing as many parents there as possible.

Upper Key Stage 2

Year Five

What an incredibly exciting week it has been for Year 5! The children had the fantastic opportunity to visit St Peter's for a live theatre performance of *School of Rock*. The energy in the room was electric and Year 5 were thrilled to take part by contributing their own performance, truly shining like rockstars on stage!

Back in the classroom, the children continued to dive into the epic story of *The Odyssey*. Their creative writing skills were on full display as they immersed themselves in the tale, bringing the characters and themes to life brilliantly.

In Maths, Year 5 began a new unit on short division and multiplication, while in Science, they continued exploring the wonders of Earth and Space.

Well done, Year 5, for making it a truly memorable week filled with both learning and excitement. Keep it up!

Year six

Another great week!

Year six have been using all their learning powers in maths, demonstrating a fantastic understanding of algebra. It's truly impressive to see their confidence grow. In English, their writing continues to shine, with many students making remarkable progress. A special mention goes to the inspiring text 'Resist,' which has captivated us all and showcases their creativity and skill.

Additionally, our computing sessions have been a hit! The children have had great fun coding robots to move, sparking their interest in technology and problem-solving.
