

## Weekly News

Friday 26th September 2025

It's been a fun filled, action packed week!

We said a farewell to our Jubilee anchor, welcomed back some of our former pupils, who shared inspiring stories about life at secondary school, taken part in Tag Rugby sessions and enjoyed expressing our creative talents in a fabulous workshop celebrating Black History Month.

To round off the week we had the absolute pleasure of welcoming our parents and carers into school to celebrate all the amazing learning that has taken place this half-term. Thank you so much to everyone who joined us, your support means a great deal to the children and staff.

The children have made fantastic progress in just a few short weeks and we're incredibly proud of their effort, resilience, and enthusiasm for learning. We are exceptionally fortunate to have such a wonderful school community.

Wishing you all a lovely weekend.

### Headteacher Award Winners

|           |                   |
|-----------|-------------------|
| Nursery   | Lenny and Koa     |
| Reception | Annie and Azil    |
| Year 1    | Sylvia and Abdul  |
| Year 2    | Ottillie and Theo |
| Year 3    | Wilf and Emmett   |
| Year 4    | Naimat            |
| Year 5    | Alfie and Caolan  |
| Year 6    | Gael and Benji    |

## EYFS

We've had a lovely week in Nursery. We have been retelling the story 'We're going on a bear hunt' together with actions and expression. The children have loved playing in the Let's explore area this week where they've been retelling the story and taking it in turns to be the bear! They've also loved climbing trees, digging in the mud and playing in the mud kitchen.

We have also enjoyed exploring our colour boxes this week and using our senses to explore a range of different objects and textures. Our baking activity this week was baking teddy bear biscuits and decorating them! They tasted yummy!!

Reception have had another wonderful week ! This week the children have got to know Pete the Parrot and have realised that sometimes he finds counting tricky! The children have been helping him by making sure he is counting slowly, counting one at a time and making sure all the items were in a neat line. Well done Reception for doing so well with your counting !

## Key Stage 1

Year 1 has had a busy week filled with many exciting learning opportunities. In Science we have been completing scientific investigations to see which materials are waterproof. In writing we have been learning how to use an adjective alongside our nouns to create a noun phrase to make our writing more descriptive and interesting. In math's we have been comparing numbers using greater than, less than and equal to symbols.

This week Year 2 have been finishing off their stories based on The Bear Under The Stairs. We have also started exploring some facts about bears ready for our report that we are going to write next week. In maths, we have been using number lines to represent numbers up to 100. We enjoyed making our own number lines using post-it notes.

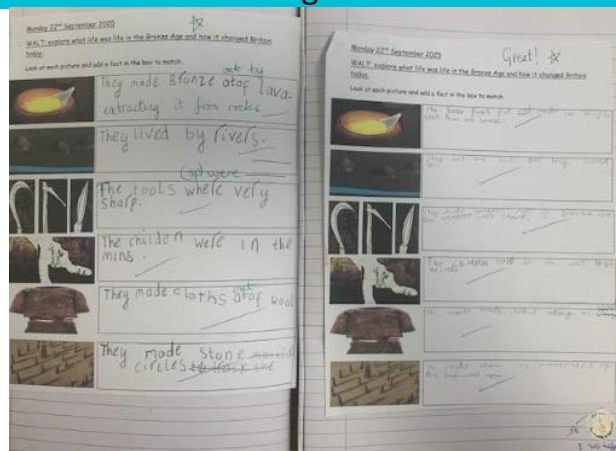

This week in RE we have been looking at the story of Noah. We enjoyed acting it out in groups. In science we were exploring habitats. We looked at a woodland habitat and our school pond.

## Lower Key Stage 2

Year 3 have been learning all about the Stone Age and Bronze Age. They have used different secondary sources to gather new facts. All of the children have enjoyed this topic and have been resilient throughout. In maths, we have been using our knowledge of place value to order numbers from 0-1,000. We enjoyed writing our own numbers on a whiteboard and then making a line from smallest to greatest. In science, we have been investigating strong and weak magnetic forces using different types of magnets.

## Year 4

We have had an amazing week in Year 4 as we explored daily life in Roman Britain.

We have explored numbers up to 10,000 and learned to compare them focussing on each digit's place value.

We have been developing our balances in P.E to begin balancing on two or less points.

## Upper Key Stage 2

### Year Five

In Science, we've been investigating the properties of different materials and discovering what makes each one so well-suited to its purpose. In Maths, the children have been building confidence by practising their rounding skills. Over in P.E., we carried on with our bridges unit, where the children showed wonderful curiosity and creativity—working individually and in teams to use their bodies in imaginative ways to form bridge structures. Fantastic effort, Year 5!

### Year six

What a week we've had! On Wednesday, we were so fortunate to work with the wonderful artist Tina Ramos Ekongo, creating fantastic pieces to support Black History Month. These incredible artworks, inspired by the Manchester Carnival, will be displayed at Longsight Art Gallery soon—how exciting! In English, we focused on extending our sentences based on the boat journey in *The Arrival*, allowing for some creative expression. Meanwhile, in Maths, the students showed great resilience as they investigated factors and multiples. In History, we delved into the key events of World War II. A truly productive week all around.

## Catholic Life

On Monday 22nd September, our Chaplains had the special opportunity to deliver the *Anchor of Hope* to St Anne's as part of its diocesan pilgrimage. They carried the Anchor with care and shared the prayers and hopes of our school community, continuing its journey of faith, hope, and joy across the Diocese of Salford.

*Loving God,  
You are our anchor and our  
strength.*

*Thank You for the gift of  
hope You place in our  
hearts.*

*Bless our school family, our  
parish, and our diocese.  
May we always share Your  
hope, joy, and peace with  
one another.*

*Amen.*
