EYFS

We've had a lovely first week back in Nursery. This week we have been reading and retelling the very hungry caterpillar story. We have been sequencing the days of the week and then discussing the food he ate each day. We had such an exciting delivery on Friday - our own caterpillars!! We can't wait to observe their changes over the next few weeks. We have also enjoyed playing in our new Garden centre role play area, buying and selling lots of flowers!

We have had a wonderful first week back in Reception ! We have really enjoyed listening to the all the memories made over half term. In class we have started our new text in Literacy 'So much' and the children have been exploring this in our reading area. Well done Reception on a great start to Summer 1.

Key Stage 1

Year 1

Year 1 have had a wonderful first week after the break. We have started our new topic 'How have explorers changed the world?' We have discussed where we would like to go and what we would need.

We have started looking at plants in Science and recognising the difference between a tree, a plant, and a fruit/seed.

We have continued learning about numbers to 20 and how we can use addition facts to 10 to help us solve addition facts to 20.

Year 2

It has been wonderful to welcome Year 2 back after the Easter break. In maths, children have begun to understand fractions through practical and engaging activities showing equal parts. In music, children are developing their skills whilst playing the tin whistle, particularly learning how to play the F note, which uses both hands. We are looking forward to another exciting term ahead.

Lower Key Stage 2

Year 3 have had a wonderful first week back of the Summer term! We have started our new book *Cinderella of the Nile* and the children have been writing in role as the main character, Rhodopis, to express her emotions to what has happened to her so far. In maths, we have begun adding and subtracting fractions which the children have grasped very quickly. We have also started our new art topic, painting, and the children have experimented creating tints and shades by adding white or black to a primary colour.

What a fantastic first week back in Year 4! We have loved exploring our new text "*Shackleton's Journey*". We have enjoyed discussing the attributes and personalities required to take part in such a daring expedition.

We are now looking at the Mayan civilisation in History and exploring their impact.

We have also looked into decimal numbers and where we might see them in our daily lives.

Upper Key Stage 2

Year Five

Year 5 have had a wonderful first week back! We have continued exploring our exciting class text *The Lost Happy Endings* and have been incredibly creative. The children put themselves in the shoes of the main character, Jub, to write thoughtful diary entries that captured her feelings. We also offered her advice on how to reclaim the happy endings.

In Maths, we have been learning about prime numbers and common factors, showing great enthusiasm and problem-solving skills. In DT, we got busy in the kitchen and enjoyed making our very own Mayan tortillas!

A fantastic start to the term—well done, Year 5, and welcome back!

Year six

Welcome back after the Easter break! We are thrilled to see our students returning with such enthusiasm and commitment to achieve their best. Their dedication and determination in preparing for their SATs have been truly inspiring, and we encourage them to keep making progress.

In addition to their core studies, the wider curriculum has been a hit, particularly in P.E. and computing, where students have started their preparations for Sports Day as well as making their 3D models of the Solar System. A special mention goes to Mr Beresford's new spelling games, which have been a favourite among the children. Let's continue this positive momentum together – well done year six.
